The Gobel Law is the most fitting monument that GOBEL could have.

The black cloud has its silver lining and even the "boycoot" works both ways.

WHICHEVER way the decision of the Supreme Court may be, the Louisville Post, fighting more vigorously than ever for Truth and the Right.

THAT Governor TAYLOR does not intend to leave Kentucky in the event of a decision against him by the Supreme Court is assured by the fact that The Cincinnati Post says that he does.

The failure of the Supreme Court to hand down a decision Monday in the Kentucky Governorship contest leads many Republicans to believe that the Court will assume jurisdiction, and that as the question is so far-reaching additional time is required to complete the elaborate opinion. One thing is certain—the local Gobelites are not parading the streets behind brass bands.

The more the public considers the argument of Mr. BRUCE and Governor BRADLEY before the Supreme Court in behalf of a state deprived of self-government, says The Louisville Post, the more general grows the belief in the public mind that the relief asked will be granted.

To the average citizen, to the man who believes firmly in liberty and in law, to the man who has been taught that for every wrong there is a remedy in law, the idea that the Supreme Court will allow a great crime against civil liberty to be committed in Kentucky, is too abhorrent to be accepted until the Court itself speaks.

It is a great crime. It has spread itself over the state like some malignant influence, poisoning the very fountains of justice. It was carefully planned, boldly executed, defiantly upheld. It is a crime never to be forgotten—never to be forgiven. In November the people chose TAYLOR Governor by a vote of 193,714 to 191,331 for GOBEL, and no decision in any Court can erase those figures.

Yet the people must not rely too confidently on the action of the Supreme Court. The argument is unanswerable, and no answer has been attempted. The pleading has been powerful, yet it may have been vain. Every crime against liberty at any age of history has been able to clothe itself with law, and only forty years ago this same Court declared that the Negro had no right which the white man was bound to respect. That may have been sound law, but it was not good morals, and "time and tide wait for no man," and "time and tide" reversed that decision and erased from the statute books the law on which it was based.

Patient, then, and steadfast must we await this final decision. If the shield of the law is at the last moment to interpose; if at the last moment the violated law is to speak out its thunders, it will be well. If otherwise the result will be postponed, not changed, and the forum will be changed.

Popular sovereignty is to be vindicated; if not in Washington in May, then in Kentucky at the polls in November. Let us fix our eyes on these remedies at home on the ballot, on the ballot-box, on the night of an unconquered people. We must at last work out our own salvation. It is a longer road to the polls, but after all it carries us home.

Rev. D. D. Chapin and family left this morning for their future home at Mt. Carmel, Ill.

THE COMMONWEALTH.

NEARLY A COLLISION.

A Riot Prevented By Gen. Collier, Who Stopped the Taylor Soldiers, Who Threatened to Shoot.

Frankfort, Ky., May 16.—After weeks of perfect peace and quiet the Taylor soldiers and the Frankfort police force came near opening hostilities last night. About 7 o'clock one of the Taylor soldiers was drunk and the white ladies were passing. The police promptly arrested him, and the nearest way to the station house was down Broadway, near the state house.

As they turned into this street the prisoner shouted loudly for his friends to come to the rescue.

A large number of soldiers started down through the state house yard, with guns and pistols, but before a direct encounter resulted Gen. Collier appeared on the scene, coolly ordered the soldiers back to quarters, and they obeyed.

A large crowd had collected on the street, and some of the soldiers shouted: "Look out, we are going to shoot!" This caused a stampede, but no one was hurt, and the swearing soldiers, who were in a bad humor, were locked up in the station house. He will be tried in the police court.

FRAUD IS ALLEGED.

A Woman Signed a Marriage Contract Which Gave Her Forty Dollars Per Year.

Scottsville, Ky., May 16.—Attorney for Mrs. Catherine Justice, wife of the late Posey Justice, filed suit against the executor of the estate of her deceased husband, in which it was stated that years ago the plaintiff was married to Mr. Justice, then a widower and the father of three little children.

A check was before the marriage the groom secured the name of the bride to a marriage contract which in substance guaranteed to her \$40 per year, and she was to have during life, and expressly providing that she should inherit nothing at his death. Attorneys for the plaintiff allege fraud, inasmuch as the bride was ignorant and uneducated and without funds or counsel at the time she gave her mark to the contract.

Howard Blythe and Ed. Leonard Behind the Bars.

Howard Blythe and Ed. Leonard, the two young men who were charged with robbing old man Sam Shelton while the latter was drunk Sunday afternoon, had a hearing yesterday afternoon before Judge Wadsworth.

The evidence was pretty strong that they got \$15 of the old man's money; but the fact that they were held in default of \$200 bail for robbery is probably due to the prolonged speech of their attorney, who tried to make believe they were pure as the beautiful snow.

They will have their next hearing before the June Grand Jury.
